IMI International Level 2 Award - Electric/Hybrid Vehicle Routine Maintenance Activities

This qualification is designed to give learners, such as vehicle service technicians, the knowledge and skills required to work safely on Electric/Hybrid vehicles when carrying out routine maintenance and repair activities (not on voltage components or systems).

This may include vehicles that have received damage to their high energy/electrical system.

Qualification highlights:

- Industry-ready skills to meet the demands of today's sector
- Future-focused qualification that supports government ambitions
- Career progression with IMI qualifications and accreditations can lead to IMI membership
